## HARVEST TECHNOLOGY TO SUPPLY MULTIPLE INFINITY NODESTREAM SYSTEMS TO TECHNIPFMC FLEET

### Highlights:

- TechnipFMC have purchased twelve (12) Infinity Nodestream Quad systems for deployment onto eight (8) vessels on a 12-month licence plan at an initial order value of approximately \$230K AUD.
- TechnipFMC has further plans in 2022 to continue system deployment to the remainder of their fleet with expansion of their remote operations centres beyond the UK, USA and Brazil.

**December 21, 2021:** Harvest Technology Group Limited (ASX:HTG) (**Company, Harvest, Group**), a global leader in network optimised remote operations, is excited to announce that it has formalised a sales and licensing agreement with TechnipFMC for twelve (12) Infinity Nodestream Quad (NSQ) systems for use across eight (8) vessels in its fleet under an initial purchase order value of approximately \$230K AUD.

TechnipFMC is a global leader in subsea, onshore/offshore and surface projects within the energy industry operating in forty-one (41) countries. Pioneering integrated technology ecosystems, such as iEPCI™, iFEED™ and iComplete™, with its proprietary technologies and comprehensive solutions, TechnipFMC designs, develops, integrates, and industrialises innovations that drive change in the energy industry, boosting productivity and mitigating risk.

TechnipFMC have successfully trialled the NSQ system in their UK and Houston remote control centres as well as on various vessels in their fleet of eighteen (18) vessels. In 2022, their plan is to roll out the NSQ systems onto the remainder of their fleet and expand their remote operations centre capability beyond their centres currently based in the UK, USA and Brazil.

- End -
